

Suggested Use:

- Administer one full tube 0.4 fl oz (12 mL) every four days to complete the initial four-dose Loading Protocol.
- Follow with additional doses according to the Maintenance Protocol recommended for your animal's needs. For more information, visit www.summitnaturally.com.

- Store in a cool, dry place. Flows best at room temperature.
- Use within 36 hours after opening.
- This product is intended for oral use only.

Administration:

PureSummit E is only to be given by oral drench syringe. Ensure horse's mouth contains no feed before administration. Remove syringe top cover, insert syringe into the corner of the horse's mouth and depress plunger completely to deposit entire contents of syringe onto the back of the horse's tongue. Monitor your horse to ensure full dose is swallowed and no part is lost or rejected.

Caution:

- Safe use in pregnant animals intended for breeding has not been proven.
- As always, make sure to consult your veterinarian if you suspect your animal is sick or injured.
- Not intended for human use.
- Keep out of reach of children, small parts create a choking hazard
- Individual results may vary.

Disclaimer:

This product is not warranted for any specific use. As always, consult your veterinarian if you suspect your animal is sick or injured. Summit LLC, Eorhapure LLC, and its sellers shall not be held liable for consequential, special, or direct damages resulting from use of this product.
