

**Administration:**

PureSummit LC may be top dressed (or mixed) into a small tasty meal your dog will want to complete or administered to picky eaters by oral syringe. To dose by syringe, remove syringe tip cover, position dog away from you, and tilt head back. Gently insert syringe at side of the mouth and squirt the medication slowly from the side onto the back of the tongue, but not down the throat. Allow dog to swallow and encourage by gently stroking throat. Ensure no part of dose is lost or rejected.

**Caution:**

- Safe use in pregnant animals intended for breeding has not been proven.
- Not intended for human use.
- Keep out of reach of children, small parts create a choking hazard
- Individual results may vary.

**Disclaimer:**

This product is not warranted for any specific use. As always, consult your veterinarian if you suspect your animal is sick or injured. Summit LLC, Eternapure LLC, and its sellers shall not be held liable for consequential, special, or direct damages resulting from use of this product.
